Peterson: Time For Me To Leaves

WUSN & WCFS/Chicago PD

Mike Peterson shocked the Country radio and music industry last week with the announcement that he was leaving to join an Oregon-based tree business in which he's been a partner for the last three years. The native Oregonian and 20-year radio vet has programmed in Albany, OR, Fresno and Chicago. His last day at US99 is August 29, after which he, wife Joan and Hannah (6), Jake (4 ½) and Ella (nine months) will depart for St. Paul, Oregon – a town of 200 about 45 minutes south of Portland. **Country Aircheck's Lon Helton** had a few questions for Peterson about the move – and the decision.

Mike Peterson

Helton: OK. You're with a great company and have one of the best jobs in radio, programming one of the world's great radio stations in one of the world's greatest cities. What the hell are you thinking?

Peterson: I know. All of that's true. But this move really isn't about the radio business. We have a window of opportunity that is just so great – and the thing is we have to do it *now*.

We talked in Las Vegas during the ACM's that this might be in your future ... but I didn't think it would happen so soon.

I didn't think it was going to happen this quickly, either. But we all decided we needed to aggressively go after this. I've been part-owner of a tree nursery with Joan's three brothers for several years. It was never in the cards for me to go back and run this business this soon, although I expected it might happen in two, three, five years. But some consultants told us we had the ability to do some really big things, and the timing is such that the opportunity is over the next couple of years. So, we have to get started this fall to take advantage of it. Once we worked out the business and economic side of it and realized we really could do this and really should do this, it became a no-brainer. And, the Oregon part of going home is icing on the cake.

Radiothon Roundup

Here's a look at recent St. Jude Radiothon results turned in by Country radio:

MY TUNES: MUSIC THAT SHAPED MY LIFE

Kevin King

ADX/Pensacola (which includes Country **WYCT**) OM and "Assistant Catalyst" **Kevin King** (getkevin@aol.com) discusses his most important songs, albums or concerts:

1. Beach Boys, *Good Vibrations*: My first album. My brother gave it to me for Christmas. Incredible music, then and now. I still have the disc, but the cover is pretty ragged.

2. Police, *Ghost in the Machine Tour*, Greensboro, NC: The first time I was part of such a sonic experience. I was already a big

fan, but the experience was overwhelming, except for the opening act, The Go-Go's.

3. Dwight Yoakam, *Guitars, Cadillac's, Etc. Etc.*: I was working Top 40 in Greenville, SC when I first heard Dwight on WESC. I bought the album that night and drove my neighbors crazy with incessant plays; I loved it. Dwight appeared at the Gaffney Peach Festival later that year and a friend and I stood in a steady rain to see him play. I would still stand in the rain to see a Dwight show.

4. Tom Petty and the Heartbreakers, *Damn the Torpedoes*: One of my main 'high school soundtrack' albums. I went through two sets of Jensen speakers with the tape.

5. Miles Davis, *Kind of Blue* featuring Cannonball Adderly and John Coltrane: The best jazz album anytime, anyplace.

• **A highly regarded song or album you've never heard:** Not sure just how important, but my son tried to get me to listen to Modest Mouse. Couldn't get through the first song.

An "important" piece of music you just don't get: Sampling. I know it's an "art," but it seems to me like a creativity vacuum. Anything by Kid Rock. (Yes, we're playing the new single.)

An album you played or listened to incessantly: Any live recording from Alison Krauss and Union Station or The Dave Matthews Band.

• **An album that never burns:** Kenny Chesney's *Be As You Are*. Goes great with the Gulf Coast.

• **One obscure or non-country song everyone should listen to right now:** Drive By Truckers album *Brighter Than Creations Dark*.

- **WJPD/Marquette, MI**, \$10,061 (7/17-18)
- **WMKC/Traverse City, MI**, \$51,010 (7/24-25)
- **WLWI/Montgomery, AL**, \$20,334 (8/7-8)
- **WSTH/Columbus, GA**, \$50,830 (8/14-15)

The Possum's latest spans 12 mostly previously recorded duets with collaborators including Ricky Skaggs, Dolly Parton, Vince Gill and Keith Richards. Seven tracks were songs not included in *The Bradley Barn Sessions* released on MCA in '94, while an additional three come from producer Billy Sherrill's sessions for Epic in '88. "Lovin' You, Lovin' Me," was recorded in '77 with Jones' late ex-wife Tammy Wynette. The remaining track, "You And Me And Time," pairs Jones with the couple's only child Georgette and was recorded in 2007.

Time For Me To Leaves *(continued from page 1)*

What is the company and what will you do?

Arrowhead Ornamentals is a shade tree nursery that grows all kinds of different varieties of shade trees. My role is like a general manager. I'm not an expert on tree varieties or dirt nutrients. What I can bring to the table are people skills, marketing, business structure, budgets, vision and the ability to talk to clients or prospective clients to find their needs.

Aren't you concerned about actually having a real job?

Yeah, I've never looked at radio like it was a real job. A lot of people who get caught up in the grind probably look at this as too much of a job. There *is* a lot of red tape and corporate stuff you have to deal with these days. But geez, Pat Green was in my office recently and we were eating lunch and listening to music – none of it was even his. How cool is that? All of the cool things we get to do are worth the grind. I will definitely miss all the cool things we get to do and the people we get to do them with. There's a lot of action – especially at this radio station.

But that's OK. I'm not at the place where I was content or satisfied that I had done enough, but I've done enough that I can feel good about my accomplishments. And I can say I've done enough cool stuff that I can walk away and feel good about it. I just feel taking advantage of this window of opportunity is a good thing.

Ever thought about what might have been next for you in radio?

Hard to say about doing any kind of corporate thing. I'm pretty aware of some of the restructuring that's coming. But I wasn't necessarily looking for that. This would be it as long as I had the ability to control it. But there was always the thought that at some point we'd move back to the West Coast.

Think you'll ever get back into radio?

There's a very real possibility I could get back into radio sometime in the future. Who knows in what capacity? But if and when the time is right, it might make sense. If not, that's OK too.

What are you going to miss most?

The characters; the charisma of the people in this industry. Not that there aren't characters in the tree business. But radio rules the world in terms of personalities and characters, which is part of what makes this business so interesting.

I won't miss the stress. But I'll miss the competitiveness of the ratings and the evolution of the PPM. It's a great time to be in radio. The technology is awesome – all the digital stuff we're doing is fascinating and the PPM will give us great things and is already delivering positive results for us. I'm really going to miss being a part of PPM as it becomes part of the regular radio language.

How much of a culture shock will it be moving to a town with fewer people than you draw at auto dealer remotes?

I'll tell you in six months. I have to admit that was part of the "Whoa, I don't know about this" factor in this whole deal. But we're doing it and we're excited about it.

This was an extremely hard decision to make because this is such a great situation. I've got a great job, work with great people and work for a great company. These jobs can be tough for anybody; this can be a tough industry if you allow it to be. But I'm not one of those people. Some people have said, "Good for you, you're getting out. This business sucks." But I am just so *not* that guy. Not for a second have I looked at this as a "great opportunity to get out" of the radio business. I don't feel that way. I just have to take advantage of a great opportunity to provide a little better life for my family. And I need to take advantage of *now*. That's the upside. The downside is I'm leaving a great radio job.
